Southern Rhône Wine Region of France

Climate: Southern Rhône has a Mediterranean climate characterized by hot summers and mild winters. *Le Mistral* is also present in this region, helping cool the vines (allowing grapes to retain acidity) and preventing rot.

The Rhône Valley takes its name from the Rhône River which runs South through the region (beginning in the Swiss Alps). The Southern Rhône varies much differently in climate and flavor profile from the Northern Rhône.

The most famous wine appellations from Southern Rhône are: Beaufort-de-Venise, Châteauneuf-du-Pape, Côtes-du-Rhône, **Côtes-du-Rhône-Villages**, Gigondas, and Vacqueyras.

The leading red grape varietal in Southern Rhône is Grenache, but most southern Rhône wines are blends of several varieties of grape including syrah, cinsaut, mourvèdre, and carignan.
