VINCHIO - VAGLIO SERRA

Vinchio & Vaglio Serra Barbaresco DOCG PIEDMONT (ITALY)

Founded in 1959 by a small group of vineyard farmers in Vinchio & Vaglio Serra, communes of Ast. Most of the vineyards are located on the steep slopes of the Alto Monferrato's hills. The land, being composed of mostly calcareous & sandy soil, is not very fertile. Thus the closely planted vines need to be meticulously cultivated, resulting in low-yielding vines. With plenty of sun exposure the low-yields vines concentrate the sugars in the grapes. Along with careful cultivation to protect the vines, the growers of Vinchio & Vaglio Serra care for the environment with reduced use of pesticides & other chemicals.

Grapes: 100% Nebbiolo.

Viniculture: Stainless steel fermentation, 12 months in French oak, 12 months in bottle

Alcohol: 14% vol.

Appearance: Ruby red color deeper garnet reflections.

Nose: Violets and tobacco

Palate: Fruity with tannic long finish when young, a warm and caressing taste when matured.

Pairing: It goes well with red meat, roast beef and wild game. It is also suitable with matured and spicy cheeses.

Piedmont Wine Region of Italy

Climate: Piedmont is made up of a variety of climates as it is surrounded on three sides by mountains. The Alpine zone is very cold, the lowlands tend to have cold winters and dry, hot summers, and along the lakes in the region, the climate is mild.

Piedmont is home to two of the most renowned wines in Italy: Barolo and Barbaresco. Both of these sought-after wines are made from the nebbiolo grape which is one of the most difficult grapes to cultivate in the world. The other most popular wine in the region is the sparkling wine, Asti, which is semi-sweet and fruity. Other leading wines in the region are: Arneis, Barbera, Dolcetto, Gavi, and Moscato d'Asti.

The Nebbiolo, surely the most prestigious and aristocratic variety of Italy, is cultivated in Piemonte from centuries, only on the foothills of the Barbaresco, Treiso and Neive districts where the ground is particularly rich of organics substances.
